Vectorization

«FOR» döngüsü yavaşlatır. Vektörel işlem çok hızlıdır.

Bunun yerine

bunu kullan

```
J = I+10
```

n=3

r = 1:n:R

I(r,:,:)

 $c = [1 \ 4 \ 7 \ 10 \ 13 \ 16 \ 19 \ 22 \ 25 \ 28 \ 31]$

c = 1:n:C

I(:,c,:)

n=3

r ve c tarafından indekslenmiş pikselleri al

I(r,c)
